2nd International symposium on cultural heritage and legal issues

Protection and reuse of industrial heritage:
Dilemmas, problems, examples

Invitation and call for abstracts

Bled, Slovenia, 1st-3rd October 2015

Introduction

The Icomos/Slovenia and the Institute for the Protection of Cultural Heritage of Slovenia are organizing the 2nd International Symposium on cultural heritage and legal issues under the title "Protection and Reuse of Industrial Heritage: Dilemmas, problems, examples", which will take place in Bled from the 1st to the 3rd October 2015.

Having in mind that industrial heritage is at risk, particularly in the area of South Eastern Europe, and taking into account the relevance of Parliamentary Assembly of the Council of Europe Resolution 1924 (2013) on industrial heritage in Europe and the 10th anniversary of the Faro Convention on the Value of Cultural Heritage for Society, the aim of the symposium is to promote increased awareness about the values of industrial heritage in contemporary society and to present challenges, dilemmas and examples related to the protection of industrial heritage. The focus of the symposium is protection of industrial heritage in the context of its rehabilitation and reuse.

In spite of the fact that the importance of industrial heritage is widely recognized across Europe, in practice this type of heritage remains to a large degree neglected in countries of Southern and above all Eastern Europe.

The goal of the symposium is to present dilemmas, problems and examples concerning the rehabilitation and reuse of industrial heritage in the context of contemporary sustainable development.
